

ARTIST OF THE DAY 2018

JOHANNA LOVE
SELECTED BY REBECCA SALTER RA

TUESDAY 3 JULY
11AM - 7PM

"My interests lie in constructing images that offer an arena within which we can contemplate themes of time, memory and mortality. These images may seem to operate at the limits of human perception and often invoke ideas of the 'technological sublime'.

Once I have started with a photographic image, generated and mediated by digital technology, I like to shift the image back into something more akin to direct human experience, using the materiality of drawing and print to slow down visual perception. I often combine processes together, using fragments of landscape and architectural subject matter, to generate unstable, shifting material surfaces, and visually complex images." - Johanna Love
